RESPONSE TO DETAILED ACTION ELECTION/RESTRICTION

AUG 30 2004

Assistant Commissioner for Patents
United States Patent & Trademark Office
2011 South Clark Place
Customer Window, Mail Stop Non-Fee Amendment
Crystal Plaza Two, Lobby, Room 1B03
Arlington, Virginia 22202

Sir:

In response to the official action mailed July 28, 2004, the following remarks are respectfully submitted in connection with the above application.

Applicant thanks the Examiner for the courtesy he extended during a telephone interview on August 30, 2004. It is understood from the Examiner and his e-mail that the classification to which group I is restricted is class 137, subclass 15.25 rather than 12.25, a typographical error in the Office Action.

Applicant provisionally elects Group I B with traverse. Group II includes five claims directed to a housing related to the method of Group I. The five claims are not believed to pose an additional burden of examination upon the Examiner already

Appl. No.: 10/779,782

examining the elected claims. In view of the foregoing, Applicant respectfully requests that the restriction requirement be reconsidered and withdrawn. Upon allowance of claim 1, Applicant requests that the remaining claims be rejoined.

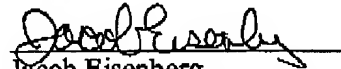

The Examiner indicated in paragraph 6 of the Office Action that a certification from Applicant that the international application, from which the instant application is a continuation, is pending and the United States designated. Applicant notes that the executed declaration submitted with the filing of the instant application includes such a certification on page 2. Applicant requests that the Examiner indicate what other information, in addition to that provided in the declaration, Applicant should provide.

The Examiner's suggestions in paragraph 7 of the Office Action are noted with appreciation. Applicant encloses herewith a preliminary amendment amending the Brief Description of the Drawings and a typographical error in the claims. The Examiner notes that certain claims appear to be substantial duplicates. Applicant respectfully disagrees and request that at least all of the elected claims be prosecuted on their merits.

The restricted claims have been elected with traverse. Applicant respectfully requests an early action on the merits. It is believed that a full and complete response has been made to the outstanding official action. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to contact the undersigned at the number provided.

In the event that the transmittal letter is separated from this document and the Patent Office determines that an extension of time and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees in connection with the filing of this document to Deposit Account No.: 502464 referencing attorney docket number 2001P80114WOUS. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.
